GLOBAL MATERIAL TECHNOLOGIES, INC

GMT Environmental Footprint Statement & Results 2017-2018

GMT is mindful of the importance of protecting our precious, but fragile environment. As such, we are committed to conducting our businesses in an ethical, environmentally responsible manner, which we see as part of being respectful of the global community we serve. GMT takes pride in being proactive in conserving natural resources, lowering GHG emissions, reducing waste and complying with all local, state, federal and global environmental regulations. GMT also encourages those in our supply chain to do the same. GMT is committed to reducing energy usage, water consumption, GHG emissions and waste to landfill by 3-5% per year per pound of product manufactured. We will accomplish this by increasing efficiencies and continually improving operations.

2017-2018 Environmental Footprint Reduction Results

Reduced Natural Gas Consumption by 8.2%

Reduced Electricity Consumption by 17.0%

Reduced Water Consumption by 13.1%

GHG Reduction of 8.2%

Solid Waste to Landfill by 27.9%
